## Renk, Ton Değişimi / Color Tone Change

Ürünlerimizin tasarımından kaynaklanan desendeki baskılarının değişimlerine göre kutu etiketlerimizde belirttiğimiz renk tonu değişimi aşağıdaki gibi bir sınıflama yapılmaktadır. Almış olduğunuz üründen 1 kutu açıldığında desendeki değişimler ile kutu içinden çıkan karolar arasındaki görünümler ürünlerimizin tasarımına göre farklılık gösterir.

*According to the changes in the prints of pattern due to the design of our products, the color tone changes indicated on the labels of the boxes are made as follows. When it is opened 1 box from the product you purchased, changes in the patterns and views between the tiles found in the box are varied with respect to the design of the products.*

### **V1** Tek Düzey Görünüm / Uniform Appearance

Aynı parti üretimden çıkan karolar arasındaki renk ve doku farkı, tüm seramik karolarında olduğu gibi malzemenin doğası gereği gözle görülmeyecek kadar azdır.

*Color and texture difference between the tiles from the same lot is very low which cannot be seen as a result of the nature of the material.*

### **V2** Hafif Farklılık / Slight Variation

Birbirine yakın renklerden oluşan karolar arasında, yüzey dokusunda ve baskı desenlerinde açıkça ayırt edilebilir farklar vardır.

*There are clear differences in surface texture and printing patterns among the tiles having similar colors.*

### **V3** Önemli Farklılık / Moderate Variation

Tek bir karoda bulunan ana renkler diğer karolarda da mevcuttur. Ancak renk şiddetleri karolar arasında önemli farklılıklar gösterir. Genellikle rustik karolarda kullanılan bir tasarım anlayışıdır.

*Main colors in one single tile can be found in other tiles. However color intensity shows differences between tiles. This is generally used in rustic tiles.*

### **V4** Rastgele Farklılık / Substantial Variation

Karodan karoya gelişigüzel renk farklılıkları görülür böylelikle bir karonun renkleri diğerinden tamamen farklı olabilir. Ancak genelde renkler arası bir harmoni vardır. Bu nevi ürünler kutulardan da gelişigüzel çıkacaktır. Genellikle rustik karolarda kullanılan bir tasarım anlayışıdır. Renk ve doku varyasyonu, tesislerimizde kontrol edilebilir. Bir parametre olup, bazı ürünlerde pazar talepleri ve tasarımı gereği ürün geliştirme aşamasında özellikle oluşturulmaktadır.

*Color differences can be observed from one tile to another. Thus, color of one tile can be different from another one. However, a harmony is observed between colors. These kinds of products can be found in the boxes in a random order. This is a design approach which is generally used in rustic tiles. Color and texture variation can be controlled in our facilities. This is a parameter, and it is developed in the stage of product development as a requirement of market demands and design.*

## Ürünlerdeki Boyut Caliber Bilgisi / Caliber Data On Products

Seramik sanayisinde kullanılan hammaddelerin ve işletme şartlarının değişkenliği (Fırın sıcaklıkları, pres basınçları vs.) sebebi ile fırından aynı anda çıkan seramiklerin boyutları aynı değildir. Bu sebeple müşterilerimize ürünlerimizi sunmadan önce otomatik makinalarımızda boyut yani caliber ayrımı yapılmaktadır. Döşenilen üründe boyut sorunu yaşanmaması için mutlaka kutu etiketlerimizdeki caliber bilgileri aynı olan ürünlerden alınmalıdır. Farklı caliberde döşeme zorunluluğu oluşması durumunda, aynı mekanlarda kullanılması tercih edilmemelidir.

*Because of the variability of the raw materials used in the ceramic industry and the operating conditions (furnace temperature, press pressures etc.), the calibers of the ceramics taken out of the furnace at the same time are not the same. Thus, before presenting our products to our customers, we carry out a caliber analysis in our automatic machines. In order not to encounter caliber problems with the product floored, you should always buy the products with the same caliber data on their box labels. In case you have to floor with products in different calibers, they should not be used in the same setting.*

## Kutu Etiketlerindeki Renk Tonu Nedir? What Is The Meaning Of Color Code On The Box Labels?

Ürünlerimizin üretimleri esnasında oluşabilen ton farklılıklarının karıştırmadan ayrı partiler halinde müşterilerimize sunmak adına ürünlerimizde kutu etiketleri üzerinde renk tonu olarak belirttiğimiz aşağıdaki renk tonu sınıflama sistemini uygulamaktayız. Ürünlerinizi teslim aldığınızda kutu etiketleri üzerindeki renk tonu sınıflarının aynı olmasına dikkat ediniz.

*We apply the following color code classification system as a color code on the box labels for the purpose of providing our products as separate lots without mixing tone differences which may occur during production. Please pay attention that the color tone*
